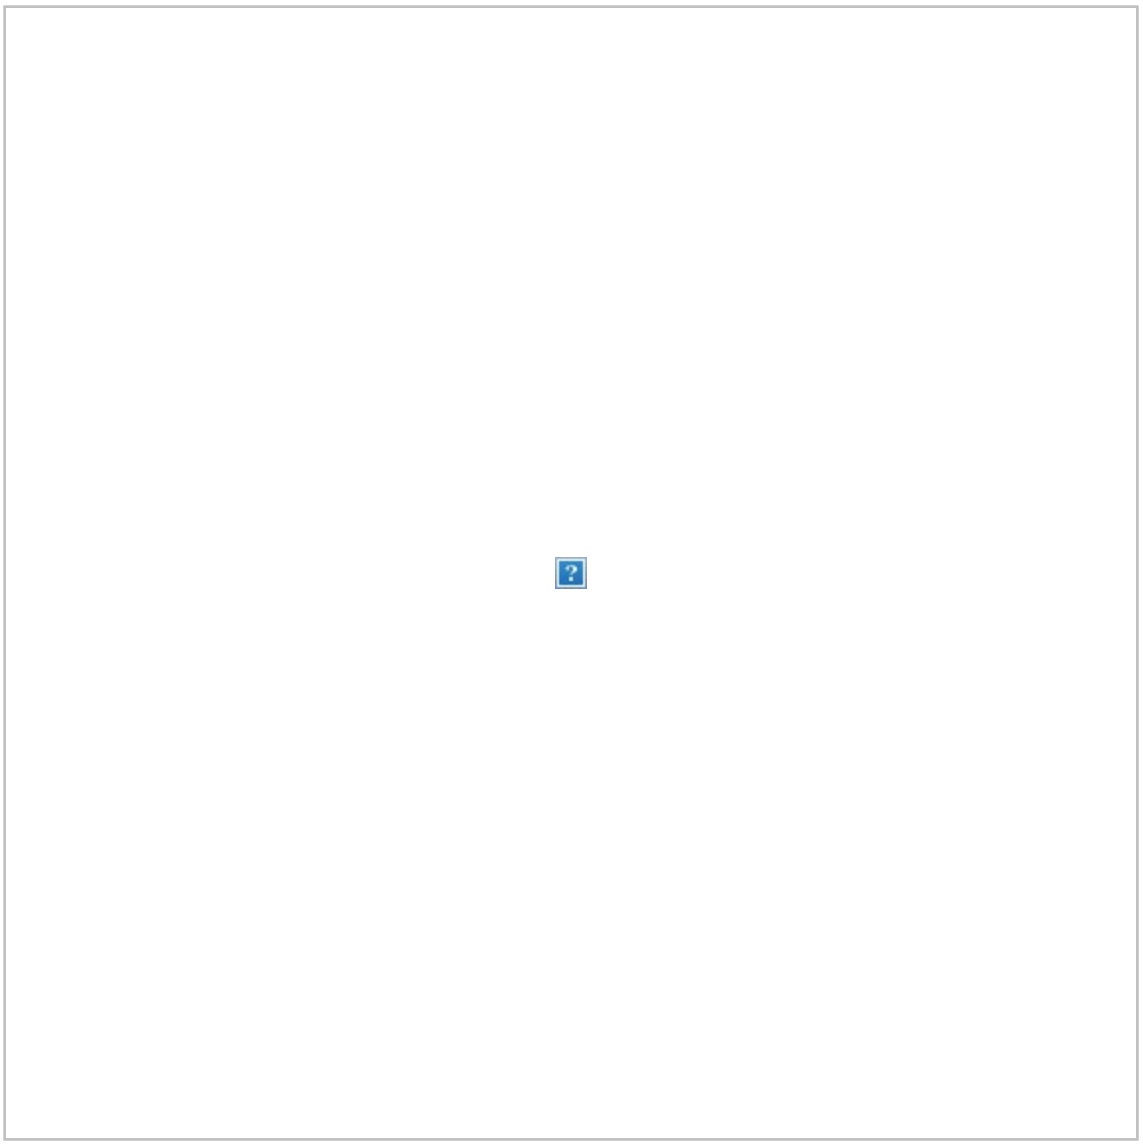
Daniel, what challenges is Santa Maria PD facing so far in 2022? What's keeps the Chief up at night? Officer Safety? How the community perceives your efforts? Training? Funding? Efficiency? Staffing? Can technology help you overcome some of these challenges? Let me know, I'll team up with you to find out.



Solutions

We specialize patrol and emergency response operations: MDC/MDT projects, rugged computers, docks, mounts, BWC and in-car video, mobile printers, routers, antennas, barcode scanners, handheld and in-car radar, speed trailers, PBT/PAS devices, AEDs, tactical drones for crime scene investigation, clearing structures, search and rescue, robots for tactical ops, robots for eyes and ears patrol, underwater dive robots (ROV) for evidence recovery, and more.

We specialize in interview rooms, eCitations, gunshot detection, mass threat alert and lockdown measures.

We specialize in CAD/RMS, Live911 streaming, VPN, LPR, speech dictation, incident

command and multi-agency collaboration.

We offer grant assistance, financing & leasing, device insurance, MDC buyback, imaging, asset tagging, professional installation of all products, and consulting on technology integration and deployment.

Contracts we have: GSA, OMNIA Partners, NASPO, NIPA, PEPPM, DIR, SLP

Go Home!

On patrol, I was an FTO for 7yrs. Officer Safety was the point I drove home. Here are 5 tips to bring to your next briefing, or cut and paste and send in a department email.

1) Don't be a d!ck. That's the fastest way to get into a fight. Remember, you are a servant first, an enforcer second.

2) Do as much as you can from the passenger-side of your vehicle and the suspect vehicle to stay out of harmful vehicular traffic, and always maintain your 45 degree angled approach.

3) Watch eyes and hands constantly. Eyes tell you where they are going, hands tell you what they are doing.

4) Let it go! In most all cases the arrest is not worth your life or someone else's. You'll catch them another day.

5) Today is the day you get shot. See if you can change that.
